

Maxwell

\$595

You will not see a long list of necessary accessories advertised for Maxwell cars.

F. O. B. DETROIT

ELECTRIC starter and lights, one-man mohair top, demountable rims, rain-vision windshield, speedometer, linoleum covered floor boards and running boards—all these features, which are found on much more expensive cars, are part of the regular Maxwell equipment. They are included in the list price.

When you buy a Maxwell, your investment is completed. There are no extras to buy.

In addition you get a car of proved endurance, of unusual economy. And behind these qualities there is the record and reputation of the Maxwell, which is second to none.

We insist and will prove to you that the Maxwell is the world's greatest motor car value.

other, Curtis Miller, the local dealer, had none in stock and could not get one so he pleaded with Prof. L. C. McMahon to let Mr. Carey buy his car, with the understanding that it was to be replaced with the first Dodge Brothers car that Mr. Miller could obtain. The deal was made. Prof. McMahon had run his car 2,198 miles, but it was just as good as new and there was no discount off the regular price—\$880.

Mr. Miller adds, with a gentle touch of irony that "This is the only way I can make anything. — sell each car four or five times. Please rush shipments."

WANTS SPOTLIGHTS ABOLISHED.

Ordinance Forbidding Use will Be Prepared By Supt. Ryan.

Dallas, Tex., Sept. 9.—Steps to prevent motorists from using "spot lights" will be taken at once by John W. Ryan, superintendent of police. He said he intends to prepare an ordinance forbidding the use of "spot lights" and to recommend its passage by the City Commissioners. He said the ordinance would not prevent the use of the "spot lights" on police and fire vehicles or ambulances.

Mr. Ryan decided to take this step after a careful study of the proposition, caused by complaints regarding the misuse of the lights and a severe criticism of the use of the lights by Clayton D. Browne, chairman of the public safety committee of the Automobile Club, at the club meeting Wednesday.

The "spot lights" referred to by Mr. Ryan are attached to automobiles within reach of the drivers. They are adjustable and may be turned in any direction. Mr. Ryan said he has received several complaints that automobile accidents have been caused by the fact that the drivers' eyes were blinded by the lights. Residents have complained that the lights have been turned on their front porches and into their bedroom windows at various times of the night. It is said that "joy riders" use them to see who are in the automobiles they pass and to blind the occupants of the other cars so as to hide their own identity.

A timely editorial in the Walker (Minn.) Pilot says that if grocery merchants were like most country editors they would still be selling twenty pounds of sugar for a dollar, regardless of what it is costing them.

DODGE BROTHERS MOTOR CAR

PAYS \$880 FOR SECOND-HAND DODGE CAR

Much public discussion has been devoted to the subject of second-hand Dodge Brothers cars and their selling value. Only a few months ago, John Cheek, brother of the Nashville, Tenn. dealer, sold his Dodge Brothers road-

ster for \$500, after having driven it more than 25,000 miles. Curtis J. Miller, Dodge Brothers dealer in Nezperce, Idaho, now comes with an even more striking illustration of the great demand for this type of car. The Nezperce Herald speaks as follows of the incident:

"On Tuesday Curtis Miller sold

Clem Carey a Dodge Brothers car. Clem and Gail Carey, with Wilfred Waters and George Fox, departed at once in the car for Wyoming, where they expect to take up homesteads. The circumstances leading up to this sale are rather out of the ordinary. Mr. Carey decided all at once that he wanted a Dodge Brothers car and no

CHEVROLET MAKES GOOD ITS PROMISES

When the Chevrolet Motor Company first offered its Model "FOUR-NINETY" Touring Car to automobile dealers and the public at the New York Show in January, 1915, with electric lights and starter, at the then sensational price of \$550, the management stated frankly that the name "FOUR-NINEY" really meant something and that, whether the company's manufacturing facilities and production justified it, the price on this car, electrically equipped, should be \$490, f. o. b. Flint, Mich.

Since the above date, the Chevrolet Company has completed the best motor plant in this country; has built and equipped an up-to-the-minute axle plant; has acquired a complete transmission plant, and has in operation seven large assembling plants. The Chevrolet Company has now reached a volume of production which enables it to make good its original promise.

I am pleased to announce that the new 1917 contracts which are now going out to Chevrolet dealers, present to the public

The model "Four Ninety" at \$490.00 fully equipped
with a standard, two-unit electric lighting and starting system built into the car.

This makes the Model "FOUR-NINETY" the Lowest Priced Electrically Lighted and Started Automobile in the Market Today
